

PROJECT INQUIRY / YOUR BRIEF

Application project brief

More detail helps us scope accurately. Unknown answers are welcome.

Your name, organization and email

Include a phone number only if you prefer a call.

The problem and intended outcome

Describe today's process and what success would look like.

People, platforms and permissions

Who uses it? Web, iPhone or other platforms? Who can view, change or approve what?

The essential workflow

Walk through one typical task. Include admin tools, reporting and exports.

PROJECT INQUIRY / YOUR BRIEF

Application project brief

More detail helps us scope accurately. Unknown answers are welcome.

Data and integrations

Data types, volumes, existing systems, migrations and APIs. No actual private records.

Reliability, access and release requirements

Accounts, offline use, notifications, backups, security needs and app distribution.

Budget, target date and flexibility

A range or "please advise" is fine. Mark essential work separately from later phases.

References, constraints and other context

Examples, decision makers, current tools and features you want to avoid.
